Comments: i oppose construction of these cabins. i do not think they help nature. bringing people into nature for vast amounts of time does drive animals/wildlife birds away from homes they may havemade in that site. there is so little land left for wildlife birds to live p eacefully on that we need to save sites like this one proposed. it is more human invasion of land. we have taken away so much land from animal inamerica.habitat loss is the greatest source of animals dying.
