Title:

Comments: I'd like to offer my assistance with some of the repair projects if possible. I would just need a heads up before so that I can take off of work and make sure that my wife is off, or someone is available to watch the kids. I work for the State's IT department as a supervisor for Region 1 DIT-T department and New Bern/Newport are part of my area IT wise, but not the forestry department. I'm willing to use some vacation to assist if it will help ease the budget. I'm good with manual labor, hand tools, chainsaws, building things, etc. I'd like to see this forest flourish and be available for public use. I don't know the extent of the damage, but willing to work and provide some input.
