Comments: The community of Sugarloaf Community Group Properties was severely affected by both the Cedar and Windy Fire's having lost half our community in the Windy Fire. We wholeheartedly support more aggressive forest management including prescribed burning.

Since removal of standing burned trees has proven to be challenging (we have been left with a tremendous amount of huge log decks in our area which are very concerning to us

s) consequently we support prescribed burning as an effective method to provide hazard reduction.

Thank you for the opportunity to comment.
