Comments: What you want to do is not clear. I don't want the forest to be closed to visitors. The forest is public and should be used by everyone. If it remains just trails, only people that have 4 wheelers can access the mountains. In Wyoming when we rode horses on forest service trails we had to pay a fee. With that fee the trails were maintained. Since there are guided tours for side by sides, they could be charged to help with the terrible roads in Manti canyon. I would love to hear from you about this issue. Ruby
