Comments: i oppose this prescribed fire logging plan. that is what it is a plan to log the hell out of teh area of national land. we need thsoe trees to make oxygen for us to breather. we need those trees to provide a home andfood sources for wildlife and birds who live it hat area. wec annot go along mauling and massacreing trees for this project. this is political and not sensible at all. save the trees. they protct us by producing oxygen. they save us by protecting ur wildlife. this killing and murderous plan needs immediate shut down.
