Comments: I am writing to object to the plans regarding the "management" of vegetation in the Sandwich /Ferncroft area. My family and friends frequent this diverse ecosystem regularly. We hike and we walk and we enjoy the natural undisturbed forest. It is beautiful ecosystem as evidenced by unique plant/mushroom/animal populations. Its value lies in it being intact, something that has built for hundreds of years. I object to disturbing this special place. This seems mostly about misplaced values, turning an ecosystem into dollars, turning life into a commodity. I live here. Leave our forest alone.
