Comments: I am a resident of Tucson and have lived in Arizona my whole life. I strongly oppose the CBP proposed construction of a Holden Canyon road. I think this is a frivolous waste of public funds, bad for the environment, and unnecessary. I appreciate that the plan includes mitigating actions regarding local wildlife and decommissioning roads but they do not offset how low priority such a road is.

If construction is to proceed, I beseech the strict enforcement of ensuring that those mitigating efforts are taken by the appropriate parties. I encourage the Forest Service to implement additional actions to ensure no Native land or sites is appropriated.

Thank you for reading,

Helena Hertzog
