Comments: To: Susan Eickhoff

I am writing to object to a road being build for the small-scale open pit mining operation in Ashley National Forest. I own the private property which the road will impact. It will destroy the pristine nature of the property by creating noise pollution as trucks travel on the road, it will disrupt wildlife in the area, and disrupt the grazing of sheep in the area. I am also concerned about the lack of construction oversight and fear construction waste will be left on my property.

I feel strongly that the area should be left in its current state and no additional roads should be built in the area.

Thank you,
LeeRoy Nielson
