Title:

Comments: I live on Fowlers Mill Road in Tamworth - 2 miles from the Liberty Trail. We endured logging trucks much of the summer from work being done in the Hemmingway State Forest. I am concerned that the Forest Service and the Wonalancet group that met recently have not bee in the same room at the same time to explain their differences clearly to ordinary people who live and recreate in the areas that are to be affected in the Sandwich Range. I am also confused that an executive order by the President seems to be ignored by the Forest Service in their planning.
