Comments: This is a beautiful wilderness that should be conserved. Clearcutting this area would be a crime against nature and against all the people who enjoy recreation there. Please do the right thing and leave this land alone.

I recently logged some of my property in Sandwich and I deeply regret doing it. It tears up the soil, destroys habitat and it is also super loud. Erosion and water quality are also a concern. I only did selective logging, not clear cutting. If you clear cut 650 acres in this gorgeous forest, you belong in jail.

Now days we should be conserving more forest, not cutting it down. Wake up.
