Comments: I am writing to oppose this project in it's current format, and respectfully suggest reconsideration. I am concerned about the impact that logging the 650 acres will have given the legal precedent that will be established (no reasonable alternatives offered - all or nothing), as well as the obvious impacts such as 1) reducing climate-critical resources, 2) eliminating endangered species and animal habitats and 3) reducing New Hampshire's beautiful natural resources. I challenge those responsible for this project to reconsider if the pros truly outweigh the gravity of these cons.
