First name: Elizabeth

Last name: Lamy-harris

Organization:

Title:

Comments: Cut down the mature trees of such a large track of land would be like committing a crime against the next generation. Are you willing to tell your children or grandchildren that you chose money for recreational sports, etc. rather than having the foresight to see these trees as a carbon sequestration goldmine.

Do the right thing and rework this plan in favor to consideration of the future health of NH and it's offspring.

Elizabeth
