Comments: Allowing e-bikes on the trails of Teton Pass will be a nightmare. The impact of that much more travel, the danger of hikers and bikers with these high speed bikes. While accessibility may be increased, you should ask your self does it need to be and should it be. Just because it can, doesn't mean it should be. The hiking on the pass will forever be changed in a negative way if e-bikes are allowed on those trails. I say no to powered vehicles on our trails.
