Comments: As a long-time Jackson resident, and an even longer bike rider and racer (road, track, and mountain bike), please do not allow e-bikes on the single-track trails in the Jackson area. E-bikes are currently allowed on the paved pathways throughout the valley, and I would encourage opening Old Pass Road for e-bike use. The single-track trails in the proposal were not designed for e-bike usage. Such usage would likely result in trail degradation, user conflicts, and wildlife displacement.

Thank you for this opportunity to comment.
