Title:

Comments: Please do NOT allow e-bikes on these trails. They will be detrimental to the environment, wildlife, and other users. The danger of forest fires from their batteries is reason alone to deny them.

I have been hiking those trails for over 50 years usually with a few friends and often with a dog. This will no longer be an enjoyable experience if e-bikes are allowed. The people riding them will be a danger not only to themselves but to all other trail users. No one else (and that is the majority of trail users) will be able to enjoy recreating on these wonderful trails any longer if e-bikes are permitted. It will be a huge loss to our community and to the world to have another area turned into a circus.
