Comments: Thanks for soliciting comments. I'm in favor of allowing ebikes on Teton Pass, the Old Pass Road and also the Cache Creek gravel road corridor up to the wilderness boundary. Impacts on wildlife are no different or worse than regular mountain produce. It's easier to dismount off of ebikes while going uphill than on regular mountain bikes because it's easier to start up again. There's no difference between the bikes going downhill. And two of three areas I'm addressing involve road width swaths rather than single tracks. Thanks and best wishes...
