Three Rivers Ranger District

12858 US Highway 2

Troy, Montana 59935

Dear District Ranger Sam Martin,

My wife and I have lived on Bull Lake Road for 45 years, and I have fished Callahan Creek for most those years and cannot think of a prettier place in the state of Montana. It was my wish to have my ashes spread along the creek when I die, up until now. I visualize the result of The Trojan Defense

Hazardous Fuels Project, looking like a giant plucked chicken with a few pin feathers sticking out of it. If nothing else, please consider leaving some well spaced seed trees throughout the Project. And do what you can to save those lovely Redband Rainbow in Callahan Creek.

Thank you for your consideration on this matter.

Regards,

William Dodson
