Comments: The e-Bike activity/usage in the Jackson Hole area has increased greatly in the past 3 to 5 years and so have the e-Mountain Bikes (e-MTB) uses increased !

Strongly support the Education Component of e-Mountain Bikes on Local Trails in the Jackson RD - there needs to be a strong piece on e-MTB do not steer themselves but the riders needs to be able to ride a non e-MTB on Singletrack Trails and not expect the e-MTB to operate and steer itself on Singletrack Trails ! Make sure e-MTB Riders are aware and use the proper trail rules and etiquette when riding singletrack trails ! The e-MTB will be potentially going faster uphill !

Strongly support the Permit Process for e-MTB - Class 1 ! If the use will only allow Class 1 e-MTB then there need to be strong and firm enforcement of riders using Class 2 or Class 3 e-MTB and definitely citations with a high fee written for those riding Class 2 or Class 3 e-MTB ! The Class 2 e-MTB really should be considered a dirt bike which is not allowed on Non Motorized MTB Trails.

Definitely support only Class 1 e-MTB on the proposed trails for this project !

The Teton Pass Area Trails would suggest caution on allowing e-MTB traveling uphill on the Downhill MTB Trails - perhaps suggest only allowing uphill travel with e-MTB on the Old Teton Pass Road - Paved Trail ! The Old Teton Pass has already a lot of multi users but would be safer than allow on Downhill MTB Trails !

The Horsetail Area Trails with Longer Season - July 1 - Dec 1 perhaps different Operating Dates June 15 - Nov 15 as the northern location those trails are mostly likely snow covered by Mid November and in the interest of trail erosion perhaps earlier closing date !

The Munger Mountain Area Trails - The Big Munger Trails - July 1 - Dec 1 would support those dates and use for e-MTB and The Lower Munger Trails - Year Round would support those dates and use for e-MTB ! Side Note - Not sure the need to have the Operating Season Year Round on Lower Munger Trails unless BTNF will allow Grooming on MTB Trails for e-MTB or e-Fat Bike !

Overall support this project for e-MTB use on select trails in the Jackson RD - with the caution to evaluate the Use of e-MTB on these trails before offering use on more popular trails like Cache or Game Creek Trails ! Thought the less popular trails in the Jackson RD have less use so less potential conflict in offering NEW Opportunities for e-MTB Use !
