Title:

Comments: Please do not allow e-bikes on these paths. All over Teton County, e-bike riders have proven they do not regard basic travel and traffic laws. Make no mistake, this is the same as allowing motor cycles. E-bike drivers to not yield to hikers which these trails are primarily used for.

Most importantly, you must consider you will be creating a luge run, similar to Teton Village where you can motor up rather than take a lift, and ride way to fast down.

This isn't about access, this is about safety and protecting our forests.
