Comments: I absolutely love my e-bike, but I am completely opposed to opening the trails to e-bikes. Increased people and bikes will lead to more trail and habitat damage, and I believe there will be a marked uptick in conflicts between hikers and bikers and between classic mountain bikers and e-bikers. As a hiker, I have had to dive off a trail more than once to avoid being hit by mountain bikers. Add e-bikes and the situation will worsen. We have more than enough places to ride. Please keep e-bikes out of the forest.
