Comments: I would like to voice my opposition to the expansion of the range of E bikes. It is blatantly obvious that humans are destroying the planet at a pace that is totally unsustainable. Allowing faster and more destructive vehicles in new places only makes humans' footprint even larger. People in the Teton area have incredible accesses to a wide range of activities even with current restrictions on use. Please keep the few remaining remote and wild place as remote and wild as possible. I'm not suggesting we bar people from visiting these places, just asking that they travel at a human powered pace.
