First name: Ava

Last name: Tozzi

Organization:

Title:

Comments: E-bikers should not be allowed on hike, horse, and non e-bike trails as they are a danger to others and will destroy the trails. There are designated trails already set in place for dirt bikes that e-bikers can use. Motorized/battery powered bikes should only be allowed in areas where only those are allowed. Teton Pass should stay a place welcome to everyone, but e-bikers should not be permitted. Please keep motorized/battery powered bikes to designated dirt bike trails that already exist, nowhere else.
