Title:

Comments: I purchased my Bentonville home in 2019 specifically because of Arkansas' support of cycling. I see no conflicts around NWA regarding e-bikes, and don't see how it would be any different on other trail systems in the state. I've ridden/raced in the Ouachita and Womble trails since 2010 on standard bikes, and would likely spend more time on them on the ebike if allowed.
