Comments: I am pleased to see a plan for this overused area. I approve of the plan and am encouraged by its scope. I particularly like the removal of user-made trails; the items relating to environmental impact, including no new routes in Natural Reserve Area; the rules for camping and human waste; and the prohibition on gluing and artificial holds.

My main concern is how the FS would enforce this plan. It seems in the past that the FS is understaffed which makes enforcement a challenge.
