First name: DENNIS E

Last name: PETERSEN

Organization: WA Small-scale Miner&#39;s Action Group

Title: Chairman of the Board

Comments: I have read the Notice of Proposed Action (Oct. 10, 2023) and can appreciate the work and research involved in developing the plan. However, I am concerned about the 35 miles of closed and demolished roads that are in the plan. It seems that either one of the of the user groups were not heard or were ignored in the plan development. There is no mention whether any of the roads listed in the plan were evaluated as relating to federal law Revised Statute 2477. At the very least the roads listed for demolition should be listed whether they were in existence before 1976, who is using them, and what they are being used for. It would be a shame if it were discovered that the USFS removed a road arbitrarily without providing this due diligence and had to spend budget to replace the road.
