Comments: Good Afternoon, The only issue I have is with the road closures, and the difficult to read map.

According to the map. The road atop Kingfisher hill, directly south of Liberty townsite and bisecting Liberty from Harkness Gulch, is to be closed.

The road travels east-west right on top of the ridge. This road provides access to 3 of my claims, and at least 1 other claim in the area. By closing this road, this will provide a hardship to prospecting and future developments of these claims. The claims impacted are listed below.

Lone Pine Fraction ORMC 17515

Blue Jay ORMC 17514

Merry Makers ORMC 17513

Gold Reserve Claim is also in the area. I cannot speak for the claimant, but road closure will likely impact the access.

Please consider including this access into the USFS road system.

Thank you
