Please accept the signatures started on this Nationwide petition for comment regarding your illegal, immoral, and unconstitutional proposal for a permit system for the blue lakes - yankee boy basin - etc. areas.

I would suggest to you, extending the wilderness boundary at Yankee Boy Basin and closing off the last 3 - 4 miles of that road would solve a lot of your problems there. Pretty sure other reasonable measures for the other area's would help you as well. Hint hint, make the road a hiking trail!

These new Jeeps and 4x4's make that old road childs play now, the new Razors etc, are a problem as well. I understand this and applaud you for wanting to protect and preserve. Let's just use some common sense. (BTW, my first trip to Yankee Boy, was in the early 70's.....)

Please be sure to visit [Change.org](https://change.org) above and add your name to the National petition for common sense!

Best Regards.

BB
