I would like to see all areas of Ten Sleep Canyon be open to future new route development based on the new guidelines put in place of no chipping. Areas that are currently considered too crowded or popular would greatly benefit from having more route options available for those that choose to visit those areas. Areas that are deemed to have potential impacts to wildlife could have those impacts mitigated by implementing seasonal closures. This has been done in recent years with great success and support from the climbing community.

In 2019, several popular climbing routes were vandalized by a small group of climbers acting against the consensus of the greater climbing community. I would like to see these routes and areas safely reestablished and reopened for enjoyment by the climbing community.

Thank you also for addressing the important topics of parking, bathroom facilities, and trail safety and signage. It would be nice to see wag bag stations as well as more portable bathrooms placed in the canyon. Climbing is only growing in popularity and with this brings more people.
