First name: Joey

Last name: Dang

Organization:

Title:

Comments: As an avid climber, I have seen more growth in the sport of climbing. That being said, I would love to see ways that it can be more convenient to keep the area clean. For example, trash cans and established bathrooms at the base of the hiking trails would be very beneficial to explorers as well as the area itself. We would have less trash and waste in areas we do not want.

In addition, more signs would be helpful. Signs can better keep climbers on the trail to prevent damage to the plant life. It would also ease frustration with finding certain areas and prevent newcomers from getting lost.

Lastly, I would also like to support more route development. Climbing is growing in popularity. During the climbing season Craig's are busy with multiple groups projecting the same climbs. New climbs would allow for more excitement and disperse the crowds on the wall. If done safely and respectfully, new climbs and opening climbing access can benefit the ten sleep community. Please support route development and opening up access in ten sleep.
