Title:

Comments: Please do not burn these forests and their wildlife and wildlife's habitat. Our forests are more precious than ever! It is truly time to protect our earth and save it, not cause more destruction.

I am not a scientist but I am a professional gardener and am very connected to our earth. I am a wildlife activist. You know our species are in constant peril and dwindling to extinction. Many are already gone.

Your job, as in your title, is to "care for the land." Thank you in advance for halting this proposal.
