Title:

Comments: Please exclude all of the designated Wildernesses from the proposed burning plans in the Sequoia and Sierra National Forests in order to comply with the Wilderness Act. Some of the country's most loved Wilderness areas are at stake, including the Ansel Adams John Muir, Kaiser, Monarch, South Sierra, Dome Land, Jennie Lakes and Golden Trout Wildernesses.

I think you should instead allow natural, lightning caused fire to play its ecological role in the Wilderness in the Sequoia and Sierra National Forests. There is also the issue of wild creatures being killed during any human set large fire. I am totally against that.
