Comments: I can't believe that you would purposely burn and cut trees down in the Sequoia and Sierra National Forests. There has been enough human caused habitat loss.

The Forest Service proposal is a huge human-driven manipulation of Wilderness that is inconsistent with the letter and spirit of the 1964 Wilderness Act. From a wilderness perspective, it is far better to allow natural, lightning-caused fire to play its role, rather than to invade Wilderness to cut down trees and burn forests based on human wishes and desires.

Do Not burn or cut theses beautiful forests!!
