Title:

Comments: From a wilderness perspective, it is better to allow natural, lightning-caused fire to play its role, rather than to invade Wilderness to cut down "undesirable" trees and burn forests based on human wishes and desires.

The Forest Service should exclude all of the designated Wildernesses from its proposed burning plans for the Sequoia and Sierra National Forests in order to comply with the Wilderness Act. America's most loved Wilderness areas are at stake. Please spare these crown jewels of the National Wilderness Preservation System from misguided burning and cutting plans.

The agency should instead allow natural, lightning-caused fire to play its ecological role in Wilderness on the Sequoia and Sierra National Forests.
