Title:

Comments: Dear Sir:

Please obey the letter of the Law found in the Wilderness Act of 1964. Let wilderness be nothing but wilderness. NO prescribed fire any where within designated wilderness areas. On the other hand, all naturally occuring fires must be allowed to burn until they go out on their own. The hand of man must not be involved in any way whatsoever. Let wilderness be real wilderness according to Law.

Thank you,  
James Woods
