Title:

Comments: Excellent-Newspaper clipping stating this was announced? Paper and date? Not a proper notification. Our whole committee of folks were watching State of Alaska spraying with pesticides. Come to find out it is US Forest Service spot spraying pesticides on our island. With our past petition against this, I want a cease and desist. Until this is sorted out! In the past, Sealaska wanted to spray pesticides to curb the alders only to find out that was not necessary. SitNews - Letter: HERBICED/PESTICIDE SPRAYING ON LONG ISLAND ALASKA By Rob Sanderson Jr. Alders protect the tender young evergreens and then they break out. Prince of Wales wants to remain pesticide free.
