Comments: I write to oppose the burning of acres and acres of the Sequoia and Sierra National Forests. This amount of burning is not necessary and will cause death and suffering of an enormous number of animal species. The Forest Service should exclude all of the designated Wildernesses from its proposed burning plans of the afore-mentioned Forests in order to comply with the Wilderness Act. It is horrifying that some of America's most loved wilderness areas are at stake, including the Ansel Adams, Dinkey Lakes, John Muir, Kaiser, Klavah, Monarch, South Sierra, Dome Land, Jennie Lakes, and Golden Trout Wildernesses. The Forest Service should instead allow natural , lightning caused fire to play its ecological role.
