Comments: The areas included in the proposed burning the Ansel Adams, Dinkey Lakes, John Muir, Kaiser, Kiavah, Monarch, South Sierra, Dome Land, Jennie Lakes, and Golden Trout Wildernesses are included in the Forest Services massive burn plan. These areas should be excluded from any such proposal, and the agency should instead allow natural, lightning-caused fire to play its ecological role in Wilderness on the Sequoia and Sierra National Forests in order to comply with the Wilderness Act.

We need to let Nature "manage" these wilderness areas. Trees we consider "undesirable" are part of the ecosystem and play their roles in these habitats. Often our interference causes harm and does not achieve the outcome we intended.
