Comments: I am writing to express my strong opposition to the Forest Service's plan to burn portions of the Sequoia and Sierra National Forests. I am very concerned that this proposed burning plan is not respecting or complying with the Wilderness Act. To honor the wilderness areas of the Sequoia and Sierra National Forests including some of the most iconic and loved wilderness areas in these forests the Forest Service should allow natural fires that are caused by lightning to work as nature intended instead of introducing machinery and burning on a human-plan that will lay waste to these wilderness areas. I ask that you do not pursue this plan in the wilderness areas of these forests. Thank you.
