Last name: Tredinnick

Organization:

Title:

Comments: This will hurt the parks more than you think. Instead of being scared, take time to learn about the work and effort that people go through to make these things safe. The parks service will be hurt if you follow through with this. Climbing is a huge part of why these parks even came to be and got worldwide recognition. Do not destroy the legacy, take to time to learn about climbing instead of being fearful of it.
