First name: Jacob

Last name: Anthony

Organization:

Title:

Comments: Are you mentally restricted people really so unintelligent? How is anyone able to safely learn how to climb if you arbitrarily remove the routes. You're going to cause exponentially more accidents, injuries, deaths, and search+rescue operations by removing bolts you feel dont fit. Even despite trails being at least 100x more damaging. Y'all are wild this literally has no logical or rational reason behind it. f screw off.
