Last name: Zickefoose

Organization:

Title:

Comments: I would like to give this project my support. My family, business and home, all located within the Pike National Forest, have all been horribly affected by the misuse and disregard of people with firearms. I would like to fully back having this section closed off to shooting. I hope the proposed shooting ranges will encourage people to go there instead of shooting every sign and tree, with no regard to what is around them.

Please feel free to contact me if more information is needed. Thank you.
