Comments: I appreciate the efforts of this project to address the problematic shooting that occurs in the Pikes Peak National Forest and in particular along Old Stage Road. It is obvious to me that irresponsible shooting has created usage conflicts where non-shooters attempting to recreate in various ways along old stage road are unable or strongly discouraged from doing so as a result of the unsafe and unsustainable practices of many shooters (for example: shooting across roads, shooting that endangers other people due to unsafe practices, destroying trees, littering, etc.). I fully support the efforts of this project to attempt to address the irresponsible behavior of many shooters in this area because I want other users to be able to enjoy the resources of the national forest without fearing for their safety. Finally, given that the potential consequences of unsafe shooting are so grave (i.e. loss of life), I believe that this project needs to consider regular enforcement mechanisms to cite shooters who are not in compliance with safe practices.
