Comments: CLIMATE CHANGE IS HAPPENING NOW: It is not just a theory and ignoring climate change in favor of profits is killing our beautiful home.

THIS WAS THE HOTTEST YEAR IN RECORDED HISTORY. The NFS lands must be kept as wilderness, with no additional development of wells, roads, and fossil fuel production. Fossil fuel use must be curtailed in order for life to continue on Earth.

I OBJECT THIS PLAN COMPLETELY. Please do not further damage our remaining wildlands and the life they support. There are renewable and sustainable ways to provide for our energy needs that should be developed and explored.

STOP. JUST STOP!!!!!! WE NEED TO BE INVESTING IN AND PROVIDING RENEWABLE, SUSTAINABLE ENERGY SOLUTIONS FOR THE PUBLIC.

IF YOU CARE AT ALL ABOUT OUR PLANET AND THE LIFE THAT IT SUPPORTS, STOP THIS PLAN. PLEASE PROTECT OUR WILD LANDS. STOP ABUSING THE LAND FOR PROFIT AND GREED. ENOUGH!!!!!!

Sincerely,

Margaret Huntington
