Title:

Comments: I wholeheartedly endorse the efforts of the Access Fund and the Black Hills Climbers Coalition in preserving climbing access and advocating for responsible bolt placement. Their dedication to maintaining climbing access and environmental conservation is crucial, and I stand behind their initiatives.

Put it simply, the climbing coalition and access fund know what they are doing. They have a proven track record of being excellent stewards of the environment. Please allow them this continued dominion without restriction. Anything less will cause much more harm than good!
