Comments: I appreciate Antelope and Elk in Park County. Badger Gulch and Wilkerson Pass Region are a critical regions for their travel / migration / refuge. NO SHOOTING SHOULD BE DONE IN THIS AREA - my request for the Park County proposed shooting range should be the third area proposed "near the corner of county Rd 90 and 92". I believe that this would facilitate the LEAST disruption of wildlife. Park County is a very precious area and our forest friends - wildlife deserve the opportunity to seek / find refuge. Shooting ranges do not offer this sort of refuge. Thank you!
