First name: Kay

Last name: Hannah

Organization:

Title:

Comments: I am strongly opposed to any oil and gas development in any of the watersheds around the Paonia area. Traffic, geological instability, air and water quality degradation, and wildlife impacts are among my grounds for objecting to any further gas and oil development in this area. Please do all in your power to protect our valuable public lands from the depredations wrought by the oil and gas companies. Thank you.
