Title:

Comments: Please grant the Thompson Watershed Withdrawal for the protection of the land, animals, air we breathe, and the planet. Please don't cave to people with big money trying to buy your opinion. This is the only land we have, and if we don't protect it and the animals therein, it will be destroyed by greedy corporations only interested in filling their own pockets with more money.

Thank you for your time and consideration in this matter. It is greatly appreciated.
