Comments: I support the Thompson Divide Withdrawal. I now live in Georgia, but I'm from Southern CA. Growing up in a family that loves car traveling / camping, my parents & I have thus summer vacationed (car traveling / camping) through almost all the "Lower 48" Continental western states. I've been to & thru each of the regions listed in the Thompson Divide Withdrawal. I definitely do NOT want any of those regions even threatened with ANY kind of development - especially NOT any kind of mining!!! The regions listed are the most beautiful parts of Colorado, (& nearby states)!!
