Comments: Reading this letter, and what this is regarding about what seems a good thing, by no mining, but along with that is it gives ranchers, etc. 20 years of using federal park lands, this is poor management of federal lands, and another political move by the blm ( a government agency which works against the native americans, ) I say vote this down, and come up where it actually benefits the park and stopping ranchers, etc. getting a free ride on federal lands.
