Comments: My comment is in favor of CLOSING THIS OFF TO DRILLING OR ANY OTHER FORM OF INDUSTRY BEING ALLOWED IN THERE!!!!!! My goodness, has man not destroyed enough of the land and sea in and around this country??? It is past time to speak up and STOP these destructive practices which in turn devastate the natural and pristine GOD set aside and blessed habitats that the LORD'S animals and sea creatures call home!!!!!! NEVER EVER, should we as citizens of this country put industry over nature. The results are already evidenced. We are destroying our own planet with human ignorance that places money over wisdom. NO MORE DRILLING! NO MORE FRACKING! Enough is enough; and we crossed that border many years ago.

Thank you.
